

2005 Northeast Fisheries Observer Program Annual Marine Mammal & Sea Turtle Incidental Take Report

Trip counts and sea day summaries are from OBSCON as not all 2005 trip data has been loaded to OBDBS (specifically Beach Anchored Gillnet, some Pot/Trap and Clam/NK Dredge trips). There were no takes on these non-entered gears. Also, two otter trawl trips from December were not entered to OBDBS due to problems entering twin trawling gear. The takes on these two trips have been included in this report (1 Risso's dolphin and 18 Common Dolphins).

*Note - Trips with program code 900 (unverified data) have not been included in any of the summaries or maps. Three incidental takes did occur within one trip (ASG, February, 2 Gray seals & 1 Harbor Porpoise)
